### Group Q - Cover Letter

Our group has decided that there are few things more important in life than good food, and what better food is there than corn? We feel that focusing our efforts on delivering an optimum corny experience to clients is the way of the future. We hope that you will lend your ears to our idea and not merely shuck it away. Let us entice you with our creamy, toasty, and buttery business proposal that'll surely grill and sear the competition! After careful research, evaluation, and self-reflection, we have decided to name our business "Corn Grub". We feel that with this name, we'll surely reach the youth who as we all know are always keen on sweet, juicy grub options. Our site will contain the following pages: Home, About, Login, Register, Change Password, and Order. Registered users will be able to make orders and have sweet, juicy corn sent straight to their email. We know they'll enjoy our offerings and be salivating for more. Please see the next page for our design prototypes.
